

SentinelOne GO

Guided Onboarding & Deployment Advisory

01 Accelerate Your Deployment

02 Gain Confidence Using Singularity™

03 See Success in Action

Set yourself up for sustained success in just 90 days with SentinelOne GO. Working in lockstep with our designated team of experts, you can streamline your SentinelOne deployment in accordance with best practices and see fast time to value.

SentinelOne GO is a guided onboarding and deployment advisory service designed to maximize your success with the Singularity™ Platform. Our customer success team employs a structured methodology to help you get up and running quickly, and equips you with best practices to stay healthy over time.

Trust One Point-of-Contact From Discovery Through Deployment

With SentinelOne GO, every customer is assigned a designated customer success engineer who uses their understanding of your unique environment and initiatives to design and help execute deployment. From day 1, you can tap into the expertise and knowledge base of your customer success engineer, including the different capabilities of the Singularity Platform, how they can help achieve your security goals, and best practices for using them.

Maximize the Performance & Precision of Your Technology

Through an ongoing cadence of advisory meetings, your customer success engineer can ensure proper setup & tuning of your SentinelOne products. During this phase, we review and refine your policies and exclusions, and track progress with prescriptive adoption checklists.

Gain Comfort & Confidence Using the Singularity Platform

Your designated engineer aims to impart SentinelOne best practices around setup, exclusions, and policies so you can better understand their impact on your environment and outcomes. On day 90, you'll leave with the confidence and know-how to manage and maintain your SentinelOne estate moving forward.

KEY BENEFITS

- + Designated customer success engineer
- + Discovery & planning tailored to your environment
- + Advised deployment & configuration
- + Initial threat triage & tuning
- + Knowledge transfer of SentinelOne best practices
- + 1 month trial of Vigilance for fully managed, 24x7 monitoring & triage

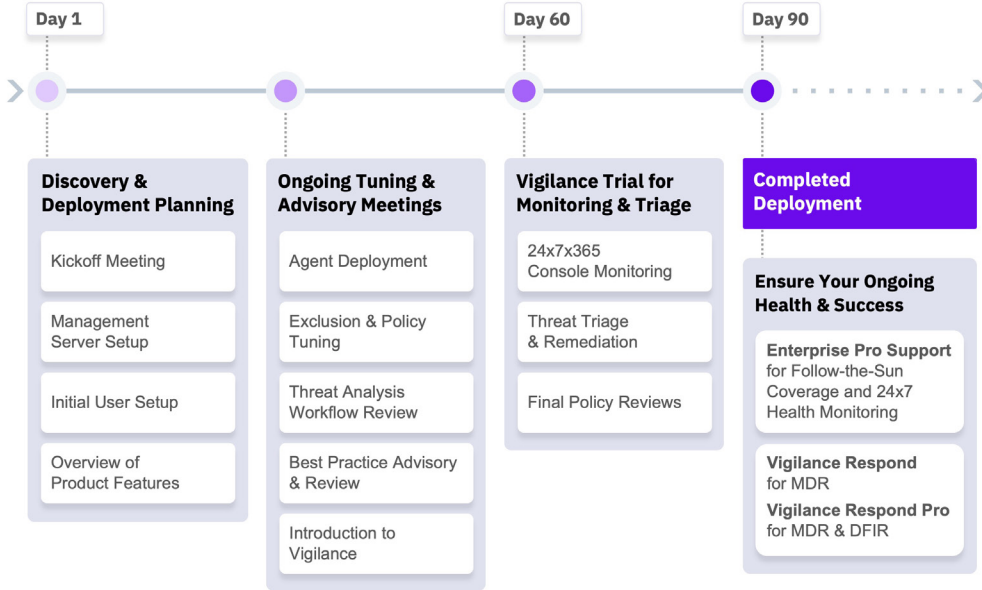

Great customer service, even better product.
